ANiMAL WELFARE AND CONSERVATiON

In addition to promoting the discovery of biodiversity, did you know that the zoo actively participates in its preservation? By breeding species that have become rare, developing conservation projects in the natural environment, carrying out veterinary and behavioural studies, etc.

Particular attention is paid to the welfare of all the animal species presented here, both in the design of their enclosures and in day-to-day care.

TAKE A WALK ON THE WiLD SiDE

Caméléon panthère

THiS YEAR, DiSCOVER OUR PROGRAM AROUND **FASCiNATiNG SPECiES,** WHETHER THEY ARE ANiMAL OR VEGETAL, REAL OR iMAGiNARY.

The particularities and unsuspected features of some species will be revealed: the arpaïma, a gigantic fish that doesn't breath under water; the intriguing change of colour of the chameleon; ants that cultivate a mushroom; the big anteater with its surprising morphology; carnivorous plants and their unusual diet... But also the Blob, an almost immortal unicellular being, or even the giraffe with its long neck!

WELCOME TO THE WORLD OF BiODiVERSiTY: 2 000 ANiMALS, 245 SPECiES, 5 BiOZONES

EMBARK ON A UNiQUE JOURNEY AMONG SURPRiSiNG AND ENDANGERED SPECiES AT THE PARC ZOOLOGiQUE DE PARiS, A HUB OF BiODiVERSiTY CONSERVATiON. HERE WONDERMENT AND THE EXOTiC AWAiT YOUNG AND OLD...

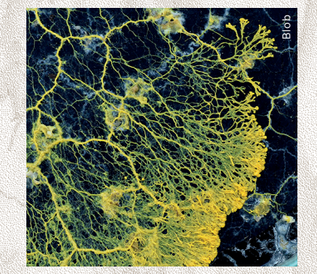
WELCOME TO THE MUSEUM

The national Museum of natural history is an atypical institution: at the same time, it is a research center, a university, a museum, a botanic garden and several zoos. With its 4 centuries of scientific adventures, the museum works for the future of our planet. Its many spaces around France will help you better understand nature in all its dimensions and the world that surrounds us. Explore them!

THiS ZOO iS ONE OF THE 11 MUSEUM'S SPACES OPENED TO THE PUBLiC

EUROPE

At the foot of the Great Rock, among the tall pines, look for **wolves, wolverines, lynx, otters**...without forgetting our star, the strange **Blob**, a little known unicellular being. It's neither an animal nor a plant or a mushroom...come meet him in our European vivarium!



GUiANA AMAZON

Discover the incredible richness of the Amazon-Guiana biozone and meet **woolly monkeys, jaguars, coatis, peccaries, macaws**, etc.

TROPiCAL GREENHOUSE

Plunge into the tropical forests of Guyana and Madagascar, home to fascinating animals and plants: **anteaters, sloths, manatees, piranhas, ants, toucans, boas, bats**, etc.

MADAGASCAR

Between tropical forest and coral reefs, explore the Madagascar biozone with its unique fauna and flora: **lemurs, blue-spotted rays, chameleons, fossas, traveller's palms**, etc.

PATAGONiA

immerse yourself in the end of the world atmosphere of the southernmost tip of the American continent. **Sea lions, Humboldt penguins and pumas** reveal their distinctive features.

OPTiMiZE YOUR ViSiT

Take the time to observe, explore and find the best viewing points. In hot weather, like you, animals seek shade. The end of the day is the best time to observe them. Unless otherwise indicated, all animals are present, even if you don't always see them at first glance. Presentations and feeding times help you learn more!

AFRiCA

Head for the savannah and the largest biozone in the park! Marvel at the giants of Africa: **giraffes, rhinoceroses, lions, ostriches**, etc.

THE GLADES

For picnicking, relaxing, or walking barefoot, the Glades will delight both young and old.

*All toilets are accessible for disabled people

**Our restaurants and take away services are open according to the seasons. Check the informations on site.
